

Decking

Decking creates a smart, usable outdoor space. Halcyon Landscapes design and install high quality timber and composite decking across Bradford and West Yorkshire.

Professional Decking Installation

We prepare the ground, build a strong sub frame, use treated joists and secure fixings, and finish with steps, edges and clean workmanship for long lasting results.

Timber & Composite Decking Options

Composite decking offers low maintenance, long lifespan and a wide choice of colours. Timber decking provides a natural, traditional appearance in softwood or hardwood.

Custom Decking Designs

We build raised decking, multi level platforms, dining areas, hot tub bases, seating areas, and decks with planters, lighting and balustrades.

Why Choose Decking?

Decking provides a clean, level surface, easy maintenance, improved access on uneven ground and an attractive feature for outdoor living.

Why Choose Halcyon Landscapes?

• Skilled installation and strong structural support • High quality materials • Local experience • Reliable and tidy team • Honest pricing • Fully insured
